design dilemmas SIMPLIFIED

R&D would like to thank the following designers who helped make this year's Fall Home Show another resounding success

Talented designer and *R&D* contributor Evelyn Eshun dazzled us with her striking design at the Fall Home Show

The *RENO & DECOR* booth at the 2014 Toronto Fall Home Show served as a hub of design and creativity once again. The feature was exquisitely designed by Toronto designer, and *R&D* contributor, Evelyn Eshun. Using beautiful selections from UpCountry, Eshun created a dramatic and striking booth incorporating barn board and metallics, creating a beautiful backdrop for our design consultations. Every day, guests were treated to free one-on-one consultations with interior designers, courtesy of interior designers of Canada (IDC). Not to mention, special appearances by our own roster of celebrity experts: Glen Peloso & Jamie Alexander, Jim Caruk, Paul Semkuley, Aisan Ahmadi, Barbara Nyke, Sandra Nash, Erica Gelman and booth designer Eshun. Everyone was on hand to help guide our guests into the world of design, decor and renovations.
